

# Fine Tech Engineering

An ISO 9001:2015 Certified Company

# Introduction

Our company specializes in the design, manufacturing, and supply of precision gauges and fixtures for various industrial applications. With a strong focus on quality, accuracy, and innovation, we provide customized solutions that enhance productivity, ensure dimensional accuracy, and support efficient manufacturing processes.

Fine Tech

## About Us

We began our journey in 2006 as a small tooling and maintenance service company, driven by the vision to deliver precision, quality, and reliable solutions. By 2009, we expanded our operations into the manufacturing of customized Jigs & Fixtures, offering tailor-made solutions to meet the diverse needs of industries. This milestone marked the beginning of our transformation from a service-based company into a complete manufacturing partner.

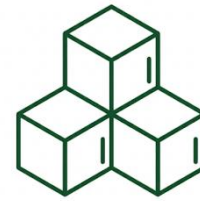

By 2014, we further strengthened our capabilities by upgrading ourselves to include manufacturing of welding fixtures, leak test fixtures, pipe bending fixtures, semi-automations, gauges, and more, establishing ourselves as a reliable engineering partner.

***A proud milestone was achieved in 2023 when we stepped into our own state-of-the-art building, a symbol of our growth, commitment, and vision for the future.***

# Values

We are committed to delivering high-precision gauges and fixtures with superior quality, innovation, integrity, teamwork, and customer satisfaction while ensuring continuous improvement and timely delivery.

## Vision

Our vision is to become a trusted leader in precision engineering by delivering innovative solutions that empower industries.

## Mission

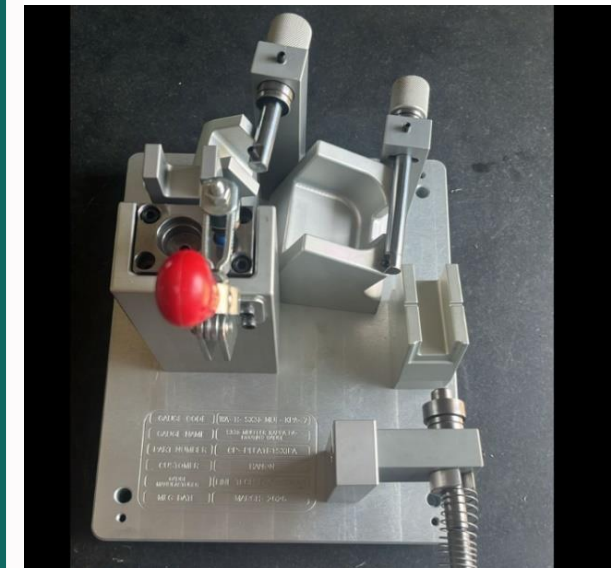

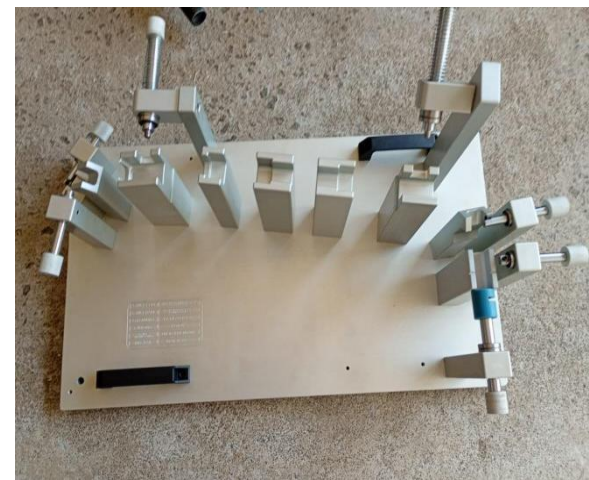

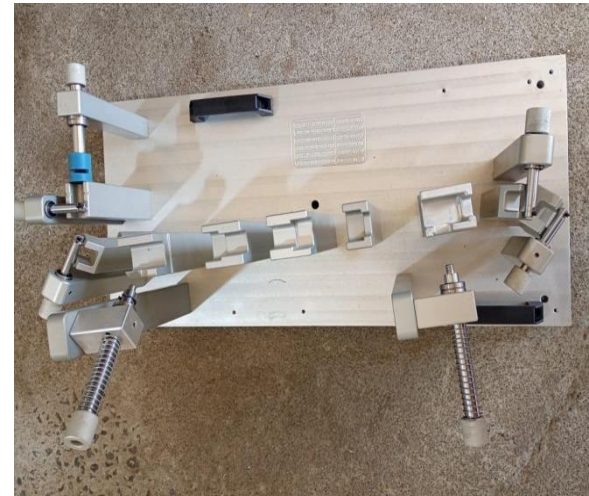

Our mission is to provide high-quality, customized engineering solutions that enhance efficiency and reliability for our clients..

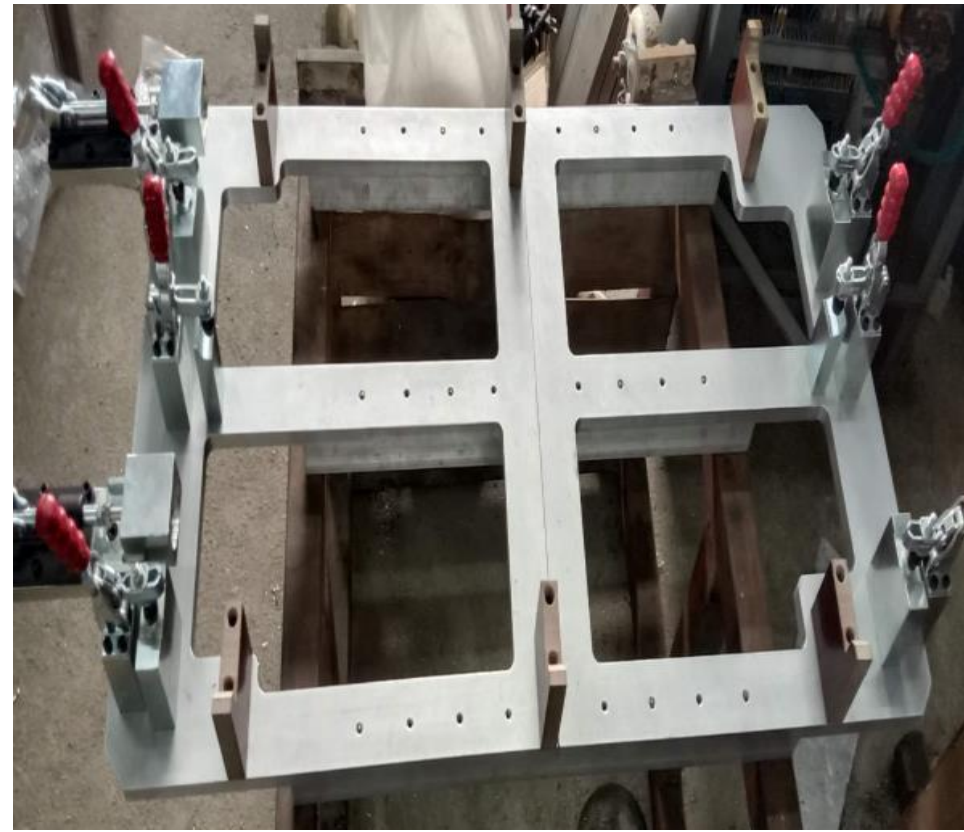

## Core Values

We are guided by integrity, innovation, reliability, passion for excellence, and customer focus in everything we do.

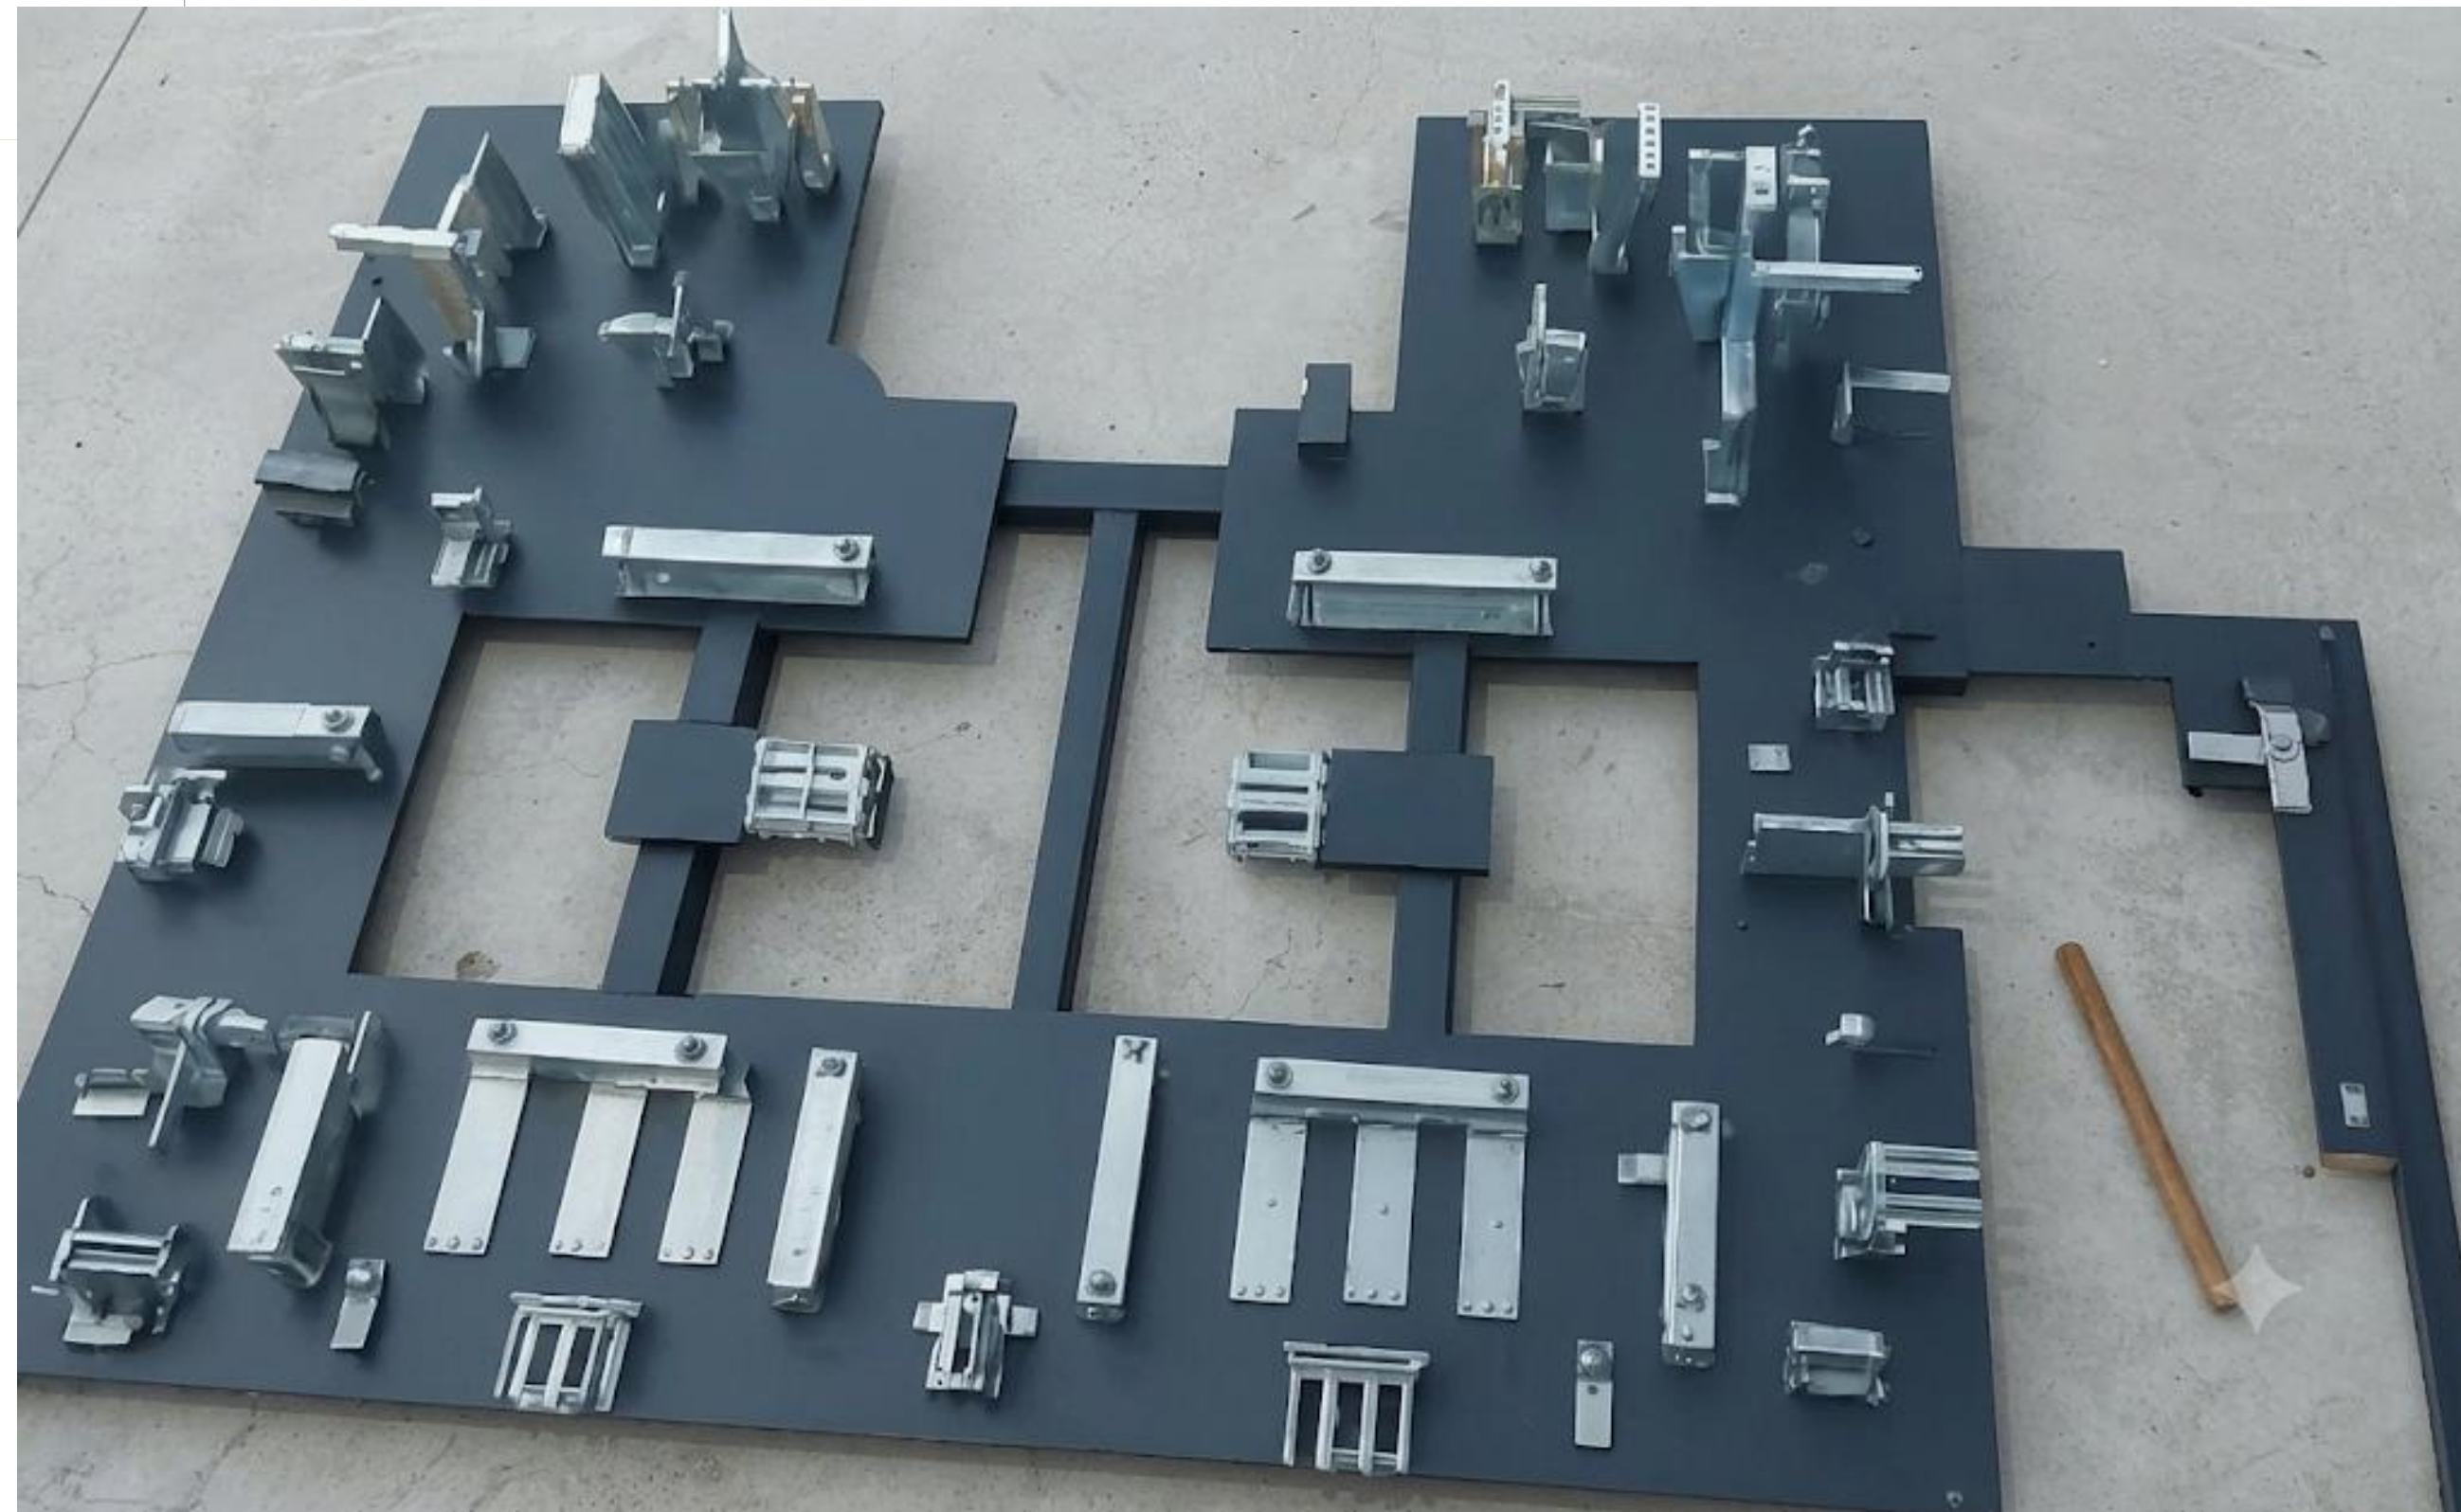

# GAUGES

# LEAK TESTING COUPLER

# CONVEYOR WITH TORLLY

# FLUX MIXING TANK

# ALUMINIUM TUBE BUFFING MACHINE STEUP

# INSPECTION (CMM)

# In House Machineries

## VMC Machine 500\*800

.....● COSMOS 800 -1Qty

## Tig Welding Machine

.....● GT -1Qty

## Conventional Milling Machine

.....● ESSTEM – 3Qty

## Arc Welding Machine

.....● GT -1Qty

## Heavy Duty Lathe Machine

.....● BALAJI – 1Qty

## Drilling Machine-20mm

.....● ITCO -2Qty

## Surface Grinding Machine

.....● RAMANA -1 Qty

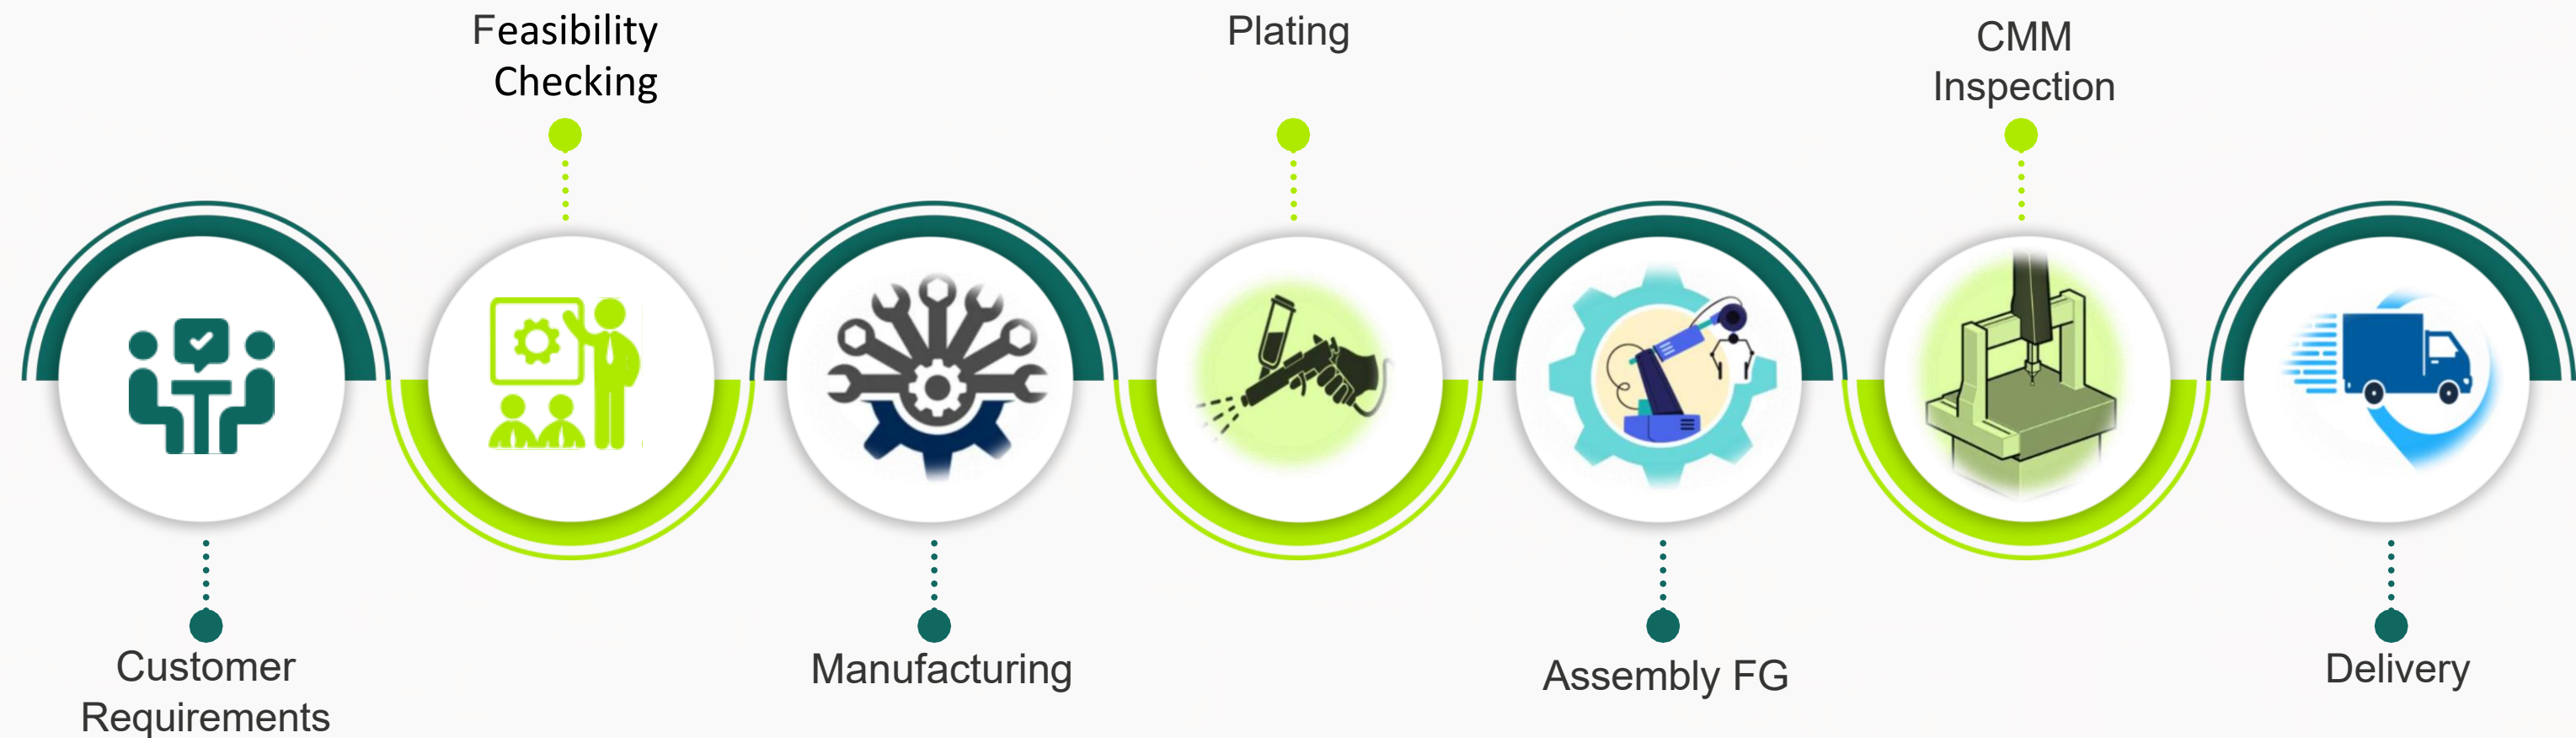

## Bandsaw Cutting Machine

.....● KRISHNA -1Qty

# Work Scenario

Our fixture and gauge manufacturing process begins with understanding customer requirements, followed by precision design, material selection, machining, assembly, quality inspection, testing, finishing, and timely delivery to ensure reliable and high-quality solutions..

# Our Value Customers

# Our Team

We are a multidisciplinary team of experienced professionals dedicated to delivering reliable, scalable, and customer-focused solutions. Our combined expertise in project management, business analysis, development, quality assurance, and support enables us to successfully execute projects while ensuring high customer satisfaction.
